

Children with Health Needs who Cannot Attend School Policy

Document Control	
Title	Children with health needs who cannot attend school policy
Date	July 2023
Supersedes	
Amendments	
Related Policies/ Guidance	The Education Act 1996 . Equality Act 2010 Data Protection Act 2018 DfE (2013) 'Ensuring a good education for children who cannot attend school because of health needs' DfE (2015) 'Supporting pupils at school with medical conditions'. It is also based on guidance provided by our local authorities: Manchester - Section 19 policy September 2021 (1).pdf Tameside - LA-Medical-Policy-2021.docx (live.com) This policy complies with our funding agreement and articles of association.
Author	Chief Executive Officer
Date of renewal	July 2024

1. Aims

This policy aims to ensure that:

Suitable education is arranged for pupils on roll who cannot attend school due to health needs.

Pupils, staff and parents understand what the school is responsible for when this education is being provided by the local authority.

2. Legislation and guidance

This policy has due regard to all relevant legislation and statutory guidance including, but not limited to:

- The [Education Act 1996](#).
- Equality Act 2010
- Data Protection Act 2018
- DfE (2013) 'Ensuring a good education for children who cannot attend school because of health needs'

- DfE (2015) 'Supporting pupils at school with medical conditions'.

It is also based on guidance provided by our local authorities:

Manchester - [Section 19 policy September 2021 \(1\).pdf](#)

Tameside - [LA-Medical-Policy-2021.docx \(live.com\)](#)

This policy complies with our funding agreement and articles of association.

3. Responsibilities of the school

Shorter term illnesses or chronic conditions are best met by school support and resources. Such conditions that might meet this definition include short term postoperative support and periods of reduced immunity. Resources to support schools in how to carry this out can be found on the Manchester Hospital School website

<https://www.manchesterhospitalschool.co.uk/>

All CLIC schools will use the graduated response to assess, meet and review the needs of their pupils. The SENDCo will create a 'Team around the child' (TAC) meeting to agree how best to meet the pupil's needs. When the pupil's medical condition becomes too complex, or the risks are too great to manage, the school should make a referral to the Hospital School for additional support.

3.1 If the school makes arrangements

Initially, the school will attempt to make arrangements to deliver suitable education for children with health needs who cannot attend school. The Head Teacher and SENDCO/DSL will be responsible for making and monitoring these arrangements. A meeting will be made with parents / carers to discuss arrangements for working from home or hospital. A plan will be drawn up detailing agreed actions from the discussion, the plan will be signed by school and parents / carers. The plan will then be carried out to deliver education to the child. The attendance lead will conduct / oversee home visits throughout. Arrangements could include sending work home or attending a hospital school. Work will be prepared by class teachers. The pupil may be slowly integrated back into school with either alternative arrangements to make it possible such as alternative spaces for break or lunch times or the pupil may come back into school on a reduced timetable until their health needs have been met.

3.2 If the local authority makes arrangements

If the school can't make suitable arrangements, the school's Local Authority (Manchester or Tameside) will become responsible for arranging suitable education for these pupils. The LA should:

- Provide such education as soon as it is clear that a pupil will be away from school for 15 days or more, whether consecutive or cumulative. They should liaise with the appropriate medical professionals to ensure minimal delay in arranging appropriate provision for the pupil. Ensure the education pupils receive is of good quality, allows them to take appropriate qualifications, prevents them from falling behind their peers in school, and allows them to reintegrate successfully back into school as soon as possible.
- Address the needs of individual pupils in arranging provision.
- Have a named officer responsible for the education of children with additional health needs and ensure parents know who this is.
- Have a written, publicly accessible policy statement on their arrangements to comply with their legal duty towards children with additional health needs.
- Manchester - [Section 19 policy September 2021 \(1\).pdf](#)
- Tameside - [LA-Medical-Policy-2021.docx \(live.com\)](#)

- Review the provision offered regularly to ensure that it continues to be appropriate for the child and that it is providing suitable education.

- Give clear policies on the provision of education for children and young people under and over compulsory school age.

The LA should not:

- Have processes or policies in place which prevent a child from getting the right type of provision and a good education.

- Withhold or reduce the provision, or type of provision, for a child because of how much it will cost.

- Have policies based upon the percentage of time a child is able to attend school rather than whether the child is receiving a suitable education during that attendance.

- Have lists of health conditions which dictate whether or not they will arrange education for children or inflexible policies which result in children going without suitable full-time education (or as much education as their health condition allows them to participate in).

In cases where the local authority makes arrangements, the school will:

- Work constructively with the local authority, providers, relevant agencies and parents to ensure the best outcomes for the pupil;

- Share information with the local authority and relevant health services as required;

- Help make sure that the provision offered to the pupil is as effective as possible and that the child can be reintegrated back into school successfully.

When reintegration is anticipated, work with the local authority to:

- Plan for consistent provision during and after the period of education outside the school, allowing the pupil to access the same curriculum and materials that they would have used in school as far as possible;

- Enable the pupil to stay in touch with school life (e.g. through newsletters, emails, invitations to school events or internet links to lessons from their school);

- Create individually tailored reintegration plans for each child returning to school;

- Consider whether any reasonable adjustments need to be made.

3.3 The Governing Body and Headteacher are responsible for

- Ensuring arrangements for pupils who cannot attend school as a result of their medical needs are in place and are effectively implemented.

- Ensuring the termly review of the arrangements made for pupils who cannot attend school due to their medical needs.

- Ensuring the roles and responsibilities of those involved in the arrangements to support the needs of pupils are clear and understood by all.

- Ensuring robust systems are in place for dealing with health emergencies and critical incidents, for both on- and off-site activities.

- Ensuring staff with responsibility for supporting pupils with health needs are appropriately trained.

- Appointing a named member of staff who is responsible for pupils with healthcare needs and liaises with parents, pupils, the LA, key workers and others involved in the pupil's care.

- Providing teachers who support pupils with health needs with suitable information relating to a pupil's health condition and the possible effect the condition and/or medication taken has on the pupil.

- Notifying the LA when a pupil is likely to be away from the school for a significant period of time due to their health needs.

3.4 The SENDCO is responsible for

- Dealing with pupils who are unable to attend school because of medical needs.
- Actively monitoring pupil progress and reintegration into school.
- Supplying pupils' education providers with information about the child's capabilities, progress and outcomes.
- Liaising with the headteacher, education providers and parents to determine pupils' programmes of study whilst they are absent from school.
- Where a school has a Family Support Worker, they will provide a link between pupils and their parents, and the LA.

3.5 Teachers and Support Staff are responsible for

- Understanding confidentiality in respect of pupils' health needs.
- Designing lessons and activities in a way that allows those with health needs to participate fully and ensuring pupils are not excluded from activities that they wish to take part in without a clear evidence-based reason.
- Understanding their role in supporting pupils with health needs and ensuring they attend the required training.
- Ensuring they are aware of the needs of their pupils through the appropriate and lawful sharing of the individual pupil's health needs.
- Ensuring they are aware of the signs, symptoms and triggers of common life-threatening medical conditions and know what to do in an emergency. Keeping parents / carers informed of how their child's health needs are affecting them whilst in the school.

4. Absences

- Parents / carers are advised to contact the school on the first day their child is unable to attend due to illness.
- Absences due to illness will be authorised unless the school has genuine cause for concern about the authenticity of the illness.
- The school will provide support to pupils who are absent from school because of illness for a period of less than 15 school days by liaising with the pupil's parents to arrange schoolwork as soon as the pupil is able to cope with it or part-time education at school. The school will give due consideration to which aspects of the curriculum are prioritised in consultation with the pupil, their family and relevant members of staff.
- For periods of absence that are expected to last for 15 or more school days, either in one absence or over the course of a school year, the named person with responsibility for pupils with health needs will notify the LA, who will take responsibility for the pupil and their education.
- Where absences are anticipated or known in advance, the school will liaise with the LA to enable education provision to be provided from the start of the pupil's absence.
- For hospital admissions, the appointed named member of staff will liaise with the LA regarding the programme that should be followed while the pupil is in hospital.

- The LA will set up a personal education plan (PEP) for the pupil which will allow the school, the LA and the provider of the pupil's education together.

- The school will monitor pupil attendance and mark registers to ensure it is clear whether a pupil is, or should be, receiving education otherwise than at school.

- The school will only remove a pupil who is unable to attend school because of additional health needs from the school roll where:

- The pupil has been certified by the school's medical officer as unlikely to be in a fit state of health to attend school, before ceasing to be of compulsory school age; and

- Neither the pupil nor their parent has indicated to the school the intention to continue to attend the school, after ceasing to be of compulsory school age.

- A pupil unable to attend school because of their health needs will not be removed from the school register without parental consent and certification from the school's medical officer, even if the LA has become responsible for the pupil's education.

5. Support for Pupils

- Where a pupil has a complex or long-term health issue, the school will discuss the pupil's needs and how these may be best met with the LA, relevant medical professionals, parents and, where appropriate, the pupil. The LA expects the school to support pupils with health needs to attend fulltime education wherever possible, or for the school to make reasonable adjustments to pupils' programmes of study where medical evidence supports the need for those adjustments.

- The school will make reasonable adjustments under pupils' individual healthcare plans (IHCPs), in accordance with the Supporting Pupils with Medical Conditions Policy.

- Pupils admitted to hospital will receive education as determined appropriate by the medical professionals and hospital tuition team at the hospital concerned.

- During a period of absence, the school will work with the provider of the pupil's education to establish and maintain regular communication and effective outcomes.

- Whilst a pupil is away from school, the school will work with the LA to ensure the pupil can successfully remain in touch with their school using the following methods: School newsletters, Emails, Invitations to school events, cards or letters from peers and staff.

- Where appropriate, the school will provide the pupil's education provider with relevant information, curriculum materials and resources.

- To help ensure a pupil with additional health needs is able to attend school following an extended period of absence, the following adaptations will be considered:

- A personalised or part-time timetable, drafted in consultation with the named staff member;

- Access to additional support in school;

- Online access to the curriculum from home;

- Movement of lessons to more accessible rooms;

- Places to rest at school;

- Special arrangements to manage anxiety or fatigue during statutory assessment periods.

6. Monitoring Arrangements

This policy will be reviewed annually by the Chief Executive Officer of the CLIC Trust. At every review, it will be approved by the Board of Trustees.

Any changes in the policy will be clearly communicated to all members of staff involved in supporting pupils with additional health needs, and to parents and pupils effected by the policy.
